EXPERIENCE

LII

Nov 2025 - Now

Womenswear Designer | New York

Design and develop ready-to-wear and runway styles from concept through sampling, including research, sketching, draping, and mockups. Create detailed technical sketches, 3D garment mockups, and tech packs to communicate fabrication, construction, and fit intent, and participate in fittings to maintain fit, proportion, and overall aesthetic.

MELITTA BAUMEISTER

Apr 2024 - Nov 2025

Production Coordinator | New York

Managing the product development process from concept to production. Oversee product design, pattern making, sampling, and production processes. Track progress and provide updates. Develop and maintain relationships with vendors and suppliers. Support the design team with product research and development.

SIXAREV

Jun 2023 - Apr 2024

Assistant Designer | New York

Supported seasonal ready-to-wear collections through design research, sketching, draping, mockups, and tech pack creation. Assisted with fabric, trim, and color selection, worked closely with Product Development and Technical Design to refine construction and fit, and helped prepare looks for reviews, presentations, and final styling.

LEAF XIA

Aug-Oct2020, Jan-Jun 2021, Jan-Feb 2024

Assistant Designer | New York

Managed showroom setups, styling plans, and model casting, with active roles in fashion week backstage coordination and photoshoot assistance. Engaged in accessory design and craftsmanship, leading to feature in VOGUEme China.

RAG&BONE

Jan 2023 - May 2023

Design Intern | New York

Developed theme-based samples including inspiration research selection and approval of materials tech pack creation, fitting comments, and communicated with overseas factories.

UNISECON

Nov 2021 - Feb 2022

Assistant Designer | New York

Managed design and product development. Work including draping, pattern making, tech pack creation, sample handling, fitting comments, and maintained communication with factories in China and Japan.
